

Noam Chomsky's Respond to DemocratiseUN

Monday, February 9, 2009

Democratisation of the United Nations

I think your concerns are entirely appropriate. The UN should be democratized. The problem, however, is that the great powers, primarily the US, will not consider it. Obama won't make any difference, I'm afraid. Judging by polls, the population of the US might regard the suggestion favorably. But democratization is needed here too, unfortunately.
